Stephen,

Okay, Tuesday 7/9, 9am-11am Central sounds good. I'll send out a scheduler to our folks.

Thanks,
Mark

Mark: I just checked with Ghassan and he is able to call in on **Tuesday 7/9, 9am-11am Central**. So, let's plan for that to be the date and time.

Marlene: I included Deana on this email.

Stephen,

I don't mean to be the bearer of bad news, but after checking with our risk section, Monday 7/8 is not feasible. Either of the morning slots for Tuesday 7/9 or Wednesday 7/10 would've worked for them, but it looks like those are not good times for the other EPA folks.

How about the morning of either Thursday 7/11 or Friday 7/12? If not, as of right now, a morning slot for Monday 7/15 through Thursday 7/18 would work for our risk section.

Thanks,
Mark

Would July 8: 9am-11am Central work?

Steve, the 8th would work for me. Could I suggest that before you finalize a date, that you hear back from Deana as she is critical to this discussion.

From the options, it looks like the R6 risk assessors (Jon, Ghassan) can make:

July 8: 9am-11am Central, and,
July 10: 9am-11am Central; noon-2pm Central.

If one of these times will work with the HQ and ADEQ teams, then I will finalize with PRPs.

Hi Arkwood Team,

The PRP would like to schedule a CSM alignment call with us (discussed previously in our briefings). The times that will work for me are:

Mon July 8: 9am-11am Central; noon-2pm Central
Tue July 9: 9am-11am Central; 2pm-4pm Central

Wed July 10: 9am-11am Central; noon-2pm Central

R6 Attendees: Jon Rauscher, Ghassan Khoury, all others optional but welcome.

HQ Attendees: Marlene Berg (and/or whomever else she includes).

ADEQ Attendees: Mark Moix (and/or whomever else he includes).

*Please let me know (ie: Jon, Ghassan, Marlene, Mark) which of these 2 hour blocks you prefer and/or which ones would not work with you.

Thanks,

Stephen L. Tzhone

Subject: Extension request - Dioxin Reassessment

Stephen,

McKesson is requesting a 30-day extension to the July 15, 2013 deadline for submitting an updated Conceptual Site Model (CSM). You had offered to coordinate a conference call to aid in developing the updated CSM and we agree that such a call is appropriate. However, due to the vacation schedules of our team, we are unable to schedule a call until the week of July 8 which doesn't allow enough time to prepare the updated CSM. Would you and your team be available for a conference call to clarify the scope of the updated CSM the week of July 8 or July 15?

Jean
